

# Travel Medicine Essentials Foundation Workshops

The Travel Medicine Essentials Course is a half-day pre-conference session for the 6th Northern European Conference on Travel Medicine (NECTM6). Spaces will be limited so early pre-booking is essential and a preferential delegate rate of £50 has been secured for this event.

This session is aimed at all health professionals and designed to introduce the inexperienced to the basics of travel medicine practice but may also be of interest to those wishing to refresh their knowledge with current practice and information.

The programme includes four stand-alone interactive workshops, each facilitated by a topic expert.
